CONTINUITY/TRANSITION OF CARE REQUEST FORM

Use the attached form to submit Continuity/Transition of Care requests within 90 days of your transition needs.

We offer eligible members temporary, continued coverage, when undergoing active treatment from a doctor who is no longer part of your plan's network. If coverage is approved, you're able complete your course of treatment or safely transfer to an in-network doctor or facility.

YOU MAY BE ELIGIBLE IF:*

You're a new Blue Cross Blue Shield of Massachusetts member, and your plan's treating provider isn't part of your network

Your continuity of care is at risk for reasons beyond your control, such as when your doctor leaves your plan's network

WHEN YOU SHOULD REQUEST CONTINUITY/TRANSITION OF CARE

You may submit a request for temporary continued coverage if you:

- Are in active course of treatment for an acute medical condition; a serious, chronic condition; cancer or chemotherapy; allergies; or a mental health condition
- Are pregnant, regardless of trimester
- Have a terminal illness
- Have a surgery or other procedure that has been authorized under your previous plan and is scheduled to occur within 90 days of your new plan's effective date
- Are enrolled in a cardiac rehab program that's already in progress
- Have established care with a specialist treating your acute or serious chronic condition

NEED TO FIND A DOCTOR?

If you need ongoing care for a chronic condition but aren't in an active course of treatment, visit an in-network doctor for covered care that meets your needs. Use our **Find a Doctor & Estimate Costs** tool to find the right provider for you.

To start searching, sign in to MyBlue at bluecrossma.org, then select **Find a Doctor & Estimate Costs**.

How to Submit Your Request

Complete the attached form, then submit it by fax or mail to Blue Cross using the address listed at the bottom of the form. Please allow two weeks for us to complete the review.

*Members who have elected to make changes in their coverage that cause them to be out-of-network aren't eligible for this request.
