# Blue Cross Blue Shield of Massachusetts Formulary: Maintenance Medication List

Last Updated: January 1, 2020

The following list includes maintenance medications that are covered by plans with the Blue Cross Blue Shield of Massachusetts formulary. These maintenance medications, also known as long-term medications, are included in our Smart90<sup>®</sup>, Select Home Delivery, and Exclusive Home Delivery programs.

This isn't a complete list of covered medications, and inclusion on the list doesn't guarantee coverage.<sup>1</sup> You must have a valid prescription from a licensed health provider to receive coverage for these medications. Some medications may also be subject to pharmacy management programs, such as Step Therapy, Prior Authorization, or Quality Care Dosing, or have other coverage requirements.

## Maintenance Medications Included in the National Preferred Formulary (NPF)

The maintenance medications listed in this document are also included in the National Preferred Formulary (NPF), which is available through Express Scripts<sup>®</sup>, an independent company that administers your pharmacy benefits on behalf of Blue Cross Blue Shield of Massachusetts. Pharmacy management program requirements apply to maintenance medications included in the NPF.

## Where to Fill Your Maintenance Medications

Members of our pharmacy plans that use the Blue Cross formulary or NPF must fill their maintenance medications at an in-network pharmacy. If your plan includes Smart90, Select Home Delivery, or Exclusive Home Delivery, you may be required to fill your maintenance medication in designated quantities from a participating retail pharmacy or through the mail order pharmacy managed by Express Scripts.

**NOTE:** Some maintenance medications on this list may be considered non-covered, including new medications under review. Your doctor may request an exception for a non-covered medication when medically necessary.<sup>2</sup>
