

# Drug Removals for Standard Control with Advanced Control Specialty Formulary®

Below is a list of medicines by drug class that have been removed from Blue Cross Blue Shield of Massachusetts plans with the Standard Control with Advanced Control Specialty Formulary. If you continue using one of the drugs listed below and identified as a Formulary Drug Removal, you may be required to pay the full cost.

If you are currently using one of the formulary drug removals, ask your health care provider to choose one of the generic or brand formulary options listed below.

After carefully reviewing each medication's cost and its clinically appropriate formulary options, we've removed the medications listed below from our formulary. However, a health care provider may request an exception if the medication prescribed is medically necessary. If the exception is approved, you may pay the highest-tier cost.

| Category Drug Class                | Formulary Drug Removals   | Formulary Options  |
|------------------------------------|---|--|
| ANALGESICS:<br>COX-2 INHIBITORS    | CELEBREX  | <i>celecoxib, diclofenac sodium, ibuprofen, meloxicam tablet, naproxen (except naproxen CR or naproxen suspension)</i>   |
| ANALGESICS:<br>GOUT                | ULORIC  | <i>allopurinol</i>   |
|                                    | <i>colchicine capsule</i><br>COLCRYS  | <i>colchicine tablet, MITIGARE</i>   |
| ANALGESICS:<br>NSAIDS/COMBINATIONS | ARTHROTEC   | <i>celecoxib; diclofenac sodium, ibuprofen, meloxicam tablet or naproxen (except naproxen CR or naproxen suspension) WITH esomeprazole delayed-rel, lansoprazole delayed-rel capsule, omeprazole delayed-rel, or pantoprazole delayed-rel tablet</i> |
|                                    | <i>Capsinac<br/>diclofenac sodium solution 2%<br/>Diclofex DC<br/>Dicloaicin<br/>Iclofenac CP<br/>Inflammacin<br/>Kapzin DC<br/>NuDiclo TabPak<br/>PENNSAID<br/>Sure Result DSS Premium Pack<br/>Ziclopro</i> | <i>diclofenac sodium, diclofenac sodium gel 1%, diclofenac sodium solution 1.5%, ibuprofen, meloxicam tablet, naproxen (except naproxen CR or naproxen suspension)</i>   |

This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. This is not an all-inclusive list of available covered options. Log in to your health plan's website to check coverage and copay information for a specific drug. Discuss this information with your doctor or health care provider. This information is not a substitute for medical advice or treatment. Talk to your doctor or health care provider about this information and any health-related questions you have. An exception process may exist for specific clinical or regulatory circumstances that may require coverage of a non-covered medication. If your doctor believes you have a specific clinical need for a non-covered product, they should make an exception request by calling: 1-800-366-7778. CVS Caremark assumes no liability whatsoever for the information provided or for any diagnosis or treatment made as a result of this information. This list is subject to change. There may be additional plan restrictions. Please consult your plan for further information.

Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed.

Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

Some listings do not include certain NDCs as noted above.

An ACCU-CHEK or ONETOUCH blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or ONETOUCH. For more information on how to obtain a blood glucose meter, call: 1-877-418-4746.

BD ULTRAFINE syringes and needles are the only preferred options.

ACCU-CHEK or ONETOUCH brand test strips are the only preferred options.

Generic multivitamins (except Activite, Dexifol, Folvite-D, HylaVite, Multipro, TronVite, Vitasure, Xvite) are the only preferred options.

Generic prenatal vitamins are the only preferred options.

For VOSEVI listing above: For use in patients previously treated with an HCV regimen containing an NS5A inhibitor (for genotypes 1-6) or sofosbuvir without an NS5A inhibitor (for genotypes 1a or 3).

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with CVS Caremark. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

The information contained in this document is proprietary. The information may not be copied in whole or in part without written permission.

CaremarkPCS Health, LLC ("CVS Caremark") is an independent company that has been contracted to administer pharmacy benefits and provide certain pharmacy services for Blue Cross Blue Shield of Massachusetts. CVS Caremark is part of the CVS Health family of companies. Blue Cross Blue Shield of Massachusetts is an Independent Licensee of the Blue Cross and Blue Shield Association.
