LEARN ABOUT TIERS

BLUE CROSS BLUE SHIELD OF MASSACHUSETTS FORMULARY

The following information explains our tiered pharmacy plans with the Blue Cross Blue Shield of Massachusetts formulary (list of covered medications), and how those tiers determine the cost of your medications.

Our formulary includes a range of generic and brand-name medications, which are placed into tiers. Your out-of-pocket costs will depend on your plan benefits and the tier of your medication.

HOW TIERS DETERMINE WHAT YOU PAY FOR MEDICATIONS

Our list of covered medications is based on a tiered cost structure. When you fill a prescription, the amount you pay the pharmacy is determined by your medication's tier and your benefits. The amount you pay may also include your copayment, co-insurance, and deductibles. The pharmacist will tell you how much you owe. To find your out-of-pocket costs for specific prescriptions:

HOW COVERED MEDICATIONS ARE PLACED INTO TIERS

Medications are placed into tiers according to a variety of factors, including what they're used for, their cost, and whether equivalent or alternative medications are available. Lower-tier medications typically cost less than higher-tier medications. For example, in a 3-tier structure, you'll likely pay the least for Tier 1 medications and the most for Tier 3 medications.

Pharmacy plans can use one of the five different tier structures outlined in this document. Check your plan materials to see which tier structure your plan uses, and to learn more about how medications are covered.¹
