# COVERED SPECIALTY MEDICATIONS FOR 5-TIER PLANS

The following list includes medications that are usually used to treat complex health conditions. Specialty medications are limited to a 30-day supply.

This isn't a complete list of covered medications, and inclusion on this list doesn't guarantee coverage.<sup>1</sup> You must have a valid prescription from a licensed health provider to receive coverage for these medications. Some medications may also be subject to pharmacy management programs, such as Step Therapy, Prior Authorization, or Quality Care Dosing, or have other coverage requirements.

**NOTE: Some medications on this list may be considered non-covered, including new medications under review by Blue Cross. Your doctor may request an exception for a non-covered medication when medically necessary.<sup>2</sup>**

## OUR 5-TIER PLAN STRUCTURE

We sort generic, brand-name, and specialty medications into tiers based on safety, clinical effectiveness, clinical outcomes, cost, and innovation. What you pay for medications at the pharmacy is determined by your prescription plan and which tier a medication is in. The following indicates how we sort medications by tier:

**Tier 1** – Generics

**Tier 3** – Non-Preferred Brands

**Tier 5** – Non-Preferred Brand Specialty

**Tier 2** – Preferred Brands

**Tier 4** – Preferred Brand Specialty

## WHERE TO FILL SPECIALTY PHARMACY MEDICATIONS

Members are required to fill medications on this list at one of the available in-network specialty pharmacies on the following pages. However, if a highly specialized medication isn't available at one of our specialty pharmacies, we'll cover the cost of the medication when it's filled at another in-network pharmacy.

### Learn More About Your Coverage

For more information about coverage for these medications, sign in to MyBlue at [bluecrossma.org](https://bluecrossma.org) or open the MyBlue app, then go to **Medication Lookup Tool** under **My Medications**.

If you're not a member, you can get more information by visiting [bluecrossma.org/medication](https://bluecrossma.org/medication).

1. Not all medications listed are covered by all prescription plans. Check your benefit materials for details.

2. If approved, you'd pay the highest-tier cost.

# FERTILITY MEDICATIONS
